

Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

The advanced manufacturing industry has a growing need for special solutions in industrial tools: safe alloys, special sizes, custom developments to cope with increasingly confined spaces, and in particular, a wide range of products to reduce suppliers.

ANTIDROP®

The widest range of industrial tools to work safely at heights.

Innovative heat-shrink system that allows adapting any of our tools.

The system complies with DROPS guidelines.

1000V INSULATED

Insulated tools that comply with IEC 60900, each one of the pieces being tested at 10,000V. They are also tested rigorously according to what the norm establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

Wide range of insulated tools (wrenches, pliers, torque wrenches, pincers, socket wrenches...), as well as insulating items (carpets, gloves, ...) ensuring the workers' safety.

NON-SPARKING

The widest range of certified industrial tools for working in explosive environments due to the presence of gases or dust.

The entire range is available in both Copper-Beryllium and Aluminium-Bronze. We also manufacture products in Brass, Copper and Acetilex®.

Industrial tools with BAM certificate, German laboratory accredited by the EU.

NON-MAGNETIC TITANIUM

The completely non-magnetic Titanium tools have been developed with the most high-tech Titanium 6A1-4V alloy, in order to be used in the most innovative and advanced fields, such as aviation, military and aerospace applications.

Working with steel tools in environments with magnetic fields poses a risk both to employees' safety and to the they are working with. In those environments, only Titanium tools are the most appropriate to ensure the safety and productivity of repairing and maintenance activities.

DON'T YOU KNOW EGA SOLUTIONS YET? ...

EGA Solutions is the engineering that provides turnkey and customized solutions for Industry 4.0.

It offers indoor and outdoor geolocation solutions, tool management and control systems, custom manufacturing of intelligent workstations and specific solutions for KANBAN warehouses among others.

TOOL CONTROL SYSTEM

EGA Master offers as a solution an exclusive and personalized tool control system avoiding deviation or loss of them.

Choose the required tools and EGA Master will design and manufacture the necessary set, fully customized, with bicolor trays that perfectly adapt to the tools and allow you to view the missing tool.

*Possibility to install EGAware, the tool control software specifically developed for this application, and to engrave the end user logo.

CONTROLLED TIGHTENING

The widest range of tools for controlled tightening. Advice and customized developments.

The range includes from digital torque wrenches (torque checking QC, mini, interchangeable heads torque wrenches...) analogic torque wrenches (mini, interchangeable heads, preset torque, dial, 1000V insulated torque wrenches...) hydraulic and battery-powered torque wrenches, to torque multipliers and calibration and control tools.

INDUSTRIAL TOOLS

The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.

The range includes from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

FOAM TRAYS AND TOOLS PERSONALIZATION

We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!

For a better tool control.

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

100% personalized and tailor-made!

WHY DOES THE **ADVANCED MANUFACTURING INDUSTRY TRUST** EGA MASTER?

12
RANGES

THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (*).

*Excluding non-sparking tools.

IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

▶ PROVEN EXPERIENCE

HITACHI RAIL GROUP
ITALY

✓ **Scope:**

- Standardization of the range of tools throughout its operation with the EGA Master brand
- One-Stop Solution with customized sets of Premium industrial tools

AERNNOVA AIRBUS A350
SPAIN

✓ **Project value: € 121,711.03**

✓ **Project:**

- Smart Stations for the manufacture of the doors of the AIRBUS A350.

✓ **Scope:**

- 14 smart stations.
- Tailor-made design, development and manufacturing.

CAF (CONSTRUCCIONES Y AUXILIARES DE FERROCARRILES)
SPAIN

✓ **Scope:**

- Design, development, manufacturing and supply of workstations.
- Development of a clean and orderly workplace, a visual control of the missing material, a faster tool transfer as well as an improved ergonomics and safety of technicians.

ALSTOM
FRANCE

✓ **Scope:**

- Customized design and manufacture of 1000V controlled tightening tool kits
- Asesoramiento técnico en la selección de las herramientas correctas

WHAT OUR CUSTOMERS SAY

AERNnova

AERNNOVA (SPAIN)

"When we first visited EGA MASTER we just had a vague idea in mind. However, that idea soon became a real project that brought a solution to our problems under extremely demanding timescales. In record time, EGA MASTER implemented a complete line of smart workstations, designed and manufactured just for our needs. Technological know-how, ability to react quickly and adapt to changes, and especially the closeness and commitment to its clients are the main traits that best define EGA MASTER."

Jose Manuel Guerra Verdejo
Aernnova Industrialization General Manager

AIRBUS

AIRBUS (PORTUGAL)

"EGA Master became a partner of Airbus Atlantic Portugal and we have been pleased to expand our range of options. The wide range of products, the quality of the tools and the delivery time are decisive factors in the aviation field, and it is with this type of partners that we must count on to be successful."
