

Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

Working in the chemical sector involves risks that could have serious human, environmental and economic consequences.

Thanks to its specialization in the sector, EGA Master offers chemical companies the necessary tools to work with maximum safety and efficiency.

NON-SPARKING

The widest range of certified industrial tools for working in explosive environments due to the presence of gases or dust.

The entire range is available in both Copper-Beryllium and Aluminium-Bronze. We also manufacture products in Brass, Copper and Acetilex®.

Industrial tools with BAM certificate, German laboratory accredited by the EU.

ATEX

ATEX certified instruments for a safe work in explosive environments.

A wide range of radios, torches, hydraulic and pneumatic tools, as well as other measuring instruments with the latest technological innovations.

ANTIDROP®

The widest range of industrial tools to work safely at heights.

Innovative heat-shrink system that allows adapting any of our tools.

The system complies with DROPS guidelines.

STAINLESS STEEL TOOLS

420 stainless steel tools, ideal for processes that require sterilization or avoid contamination by carbon steel.

If you would like to know more about explosive environments, visit our website:

DID YOU KNOW...

The hardness of the Cu-Be is 40% higher than the Al-Bron, so it wears less and has a 40% longer life.

The Cu-Be alloy is safer than Al-Bron because its sparks have less energy. Cu-Be is especially recommended in atmospheres listed under the IIC group.

For environments with acetylene, **EGA Master has developed a new alloy called ACETILEX®. This is the only safe option in environments with acetylene** (it has less than 65% of copper in its composition, thus it's safe).

PIPE TOOLS

The widest range of pipe tools and machines designed for use in demanding and heavy industrial environments.

Our innovations and patented pipe tools such as our Mastergrip make your work more efficient than ever.

CONTROLLED TIGHTENING

The widest range of tools for controlled tightening. Advice and customized developments.

The range includes from digital torque wrenches (torque checking QC, mini, interchangeable heads torque wrenches...) analogic torque wrenches (mini, interchangeable heads, preset torque, dial, 1000V insulated torque wrenches...) hydraulic and battery-powered torque wrenches, to torque multipliers and calibration and control tools.

INDUSTRIAL TOOLS

The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.

The range includes from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

FOAM TRAYS AND TOOLS PERSONALIZATION

We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!

For a better tool control.

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

100% personalized and tailor-made!

WHY DOES THE CHEMICAL SECTOR TRUST EGA MASTER?

12
GAMAS

THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (*).

*Excluding non-sparking tools.

IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

▶ PROVEN EXPERIENCE

KUWAIT OIL COMPANY KUWAIT

- ✔ **Project Value: US\$1,041,118.17**
 - 3 phases in 8 weeks
 - Delivered on time
 - 28 different product categories
 - More than 720 different codes
- ✔ **53.426 tools delivered within an 8-week period.**

SADARA PETROCHEMICAL COMPLEX KINGDOM OF SAUDI ARABIA (KSA)

KBR

- ✔ **Project Value: US\$843,659.20**
 - 3 phases in 10 weeks.
 - Delivered ahead of required deadline by KBR.
 - 18 Different product categories.
 - More than 450 roller cabinets
- ✔ **39,130 tools supplied in more than 2,750 customized trays!**

JG SUMMIT PETROCHEMICAL PHILIPPINES

- ✔ **Project Value: EUR154,869.00**
 - Immediate delivery time
- ✔ **Tool sets with Tool Control System (TCS) software**

▶ OUR MOST DEMANDING USERS

WHAT OUR CUSTOMERS SAY

Shell

SHELL (NIGERIA)

"EGA Master Tools are absolutely amazing tools in terms of value in safety, convenience and versatility."

Godfrey Ekeke
Maintenance Planner

CNOOC

CNOOC (CHINA)

"The Non-Sparking tools of EGA Master are perfect in fine detail and craftsmanship."

Ji Liu
Maintenance Chief

ExxonMobil

EXXONMOBIL (NIGERIA)

"Safety is the watch word in our company and using EGA Master tools has helped us maintain that record over the years."

Chidi Ahamefula
Central Tools Coordinator

INNOPHOS (MEXICO)

"The EGA Master tools have been very functional and comfortable, we feel very good in use, but especially in performance. Over all, very good brand."

Ingénieur Omar H.
Dispatching Area

LINDE (PERU)

"We have chosen EGA Master as a supplier of non-sparking tools due to the high quality of their products and the wide range they offer us."

Enrique Rachitoff
Bulk Distribution Manager
