

# Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

The food industry has a growing need for special solutions in industrial tools: wide range, sterilizable alloys, special sizes, custom developments to cope with increasingly confined spaces; control systems to cope with FOD (Foreign Object Damage) and a growing need for globally approved supply.

## TOOL CONTROL SYSTEM

**EGA Master offers as a solution an exclusive and personalized tool control system avoiding deviation or loss of them.**

Choose the required tools and EGA Master will design and manufacture the necessary set, fully customized, with bicolor trays that perfectly adapt to the tools and allow you to view the missing tool.

\*Possibility to install EGAware, the tool control software specifically developed for this application, and to engrave the end user logo.

## STAINLESS-STEEL TOOLS

**420 stainless steel tools, ideal for processes that require sterilization or avoid contamination by carbon steel.**

## NON-MAGNETIC TITANIUM

**The completely non-magnetic Titanium tools have been developed with the most high-tech Titanium 6A1-4V alloy, in order to be used in the most innovative and advanced fields, such as aviation, military and aerospace applications.**

Working with steel tools in environments with magnetic fields poses a risk both to employees' safety and to the machines they work with. In those environments, Titanium tools are the most appropriate to ensure the safety and productivity of repairing and maintenance activities.

## DON'T YOU KNOW EGA SOLUTIONS YET? ...

EGA Solutions is the engineering that provides turnkey and customized solutions for Industry 4.0.

It offers indoor and outdoor geolocation solutions, tool management and control systems, custom manufacturing of intelligent workstations and specific solutions for KANBAN warehouses among others.

## INDUSTRIAL TOOL

**The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.**

The range includes everything from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

## CONTROLLED TIGHTENING

**The widest range of tools for controlled tightening. Advice and customized developments**

The range includes from digital torque wrenches (torque checking QC, mini, interchangeable heads torque wrenches...) analogic torque wrenches (mini, interchangeable heads, preset torque, dial, 1000V insulated torque wrenches...) hydraulic and battery-powered torque wrenches, to torque multipliers and calibration and control tools.

## FOAM TRAYS AND TOOLS PERSONALIZATION

**We also mark each tool with your logo, company name or workshop name to improve its traceability and reduce costly losses!**

**For better tool control.**

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

**100% personalized and tailor-made!**

## WHY DOES THE FOOD & BEVERAGE SECTOR TRUST EGA MASTER?

**12  
RANGES**

### THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

### PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (\*).

\*Excluding non-sparking tools.

### FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.
