

Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

Working at the marine sector requires promptness in service, complete range, reliability in delivery; all these while ensuring safety of workforce.

Thanks to its specialization in the sector, EGA Master allows shipping companies as well as shipyards to operate and maintain their assets without compromising the safety and efficiency of its workforce, with more than 25,000 references and with a distribution network in more than 150 countries.

NON-SPARKING

The widest range of certified industrial tools for working in explosive environments due to the presence of gases or dust.

The entire range is available in both Copper-Beryllium and Aluminium-Bronze. We also manufacture products in Brass, Copper and Acetilex®.

Industrial tools with BAM certificate, German laboratory accredited by the EU.

ATEX

ATEX certified instruments for a safe work in explosive environments.

A wide range of radios, torches, hydraulic and pneumatic tools, as well as other measuring instruments with the latest technological innovations.

ANTIDROP®

The widest range of industrial tools to work safely at heights.

Innovative heat-shrink system that allows adapting any of our tools.

The system complies with DROPS guidelines.

1000V INSULATED

Insulated tools that comply with IEC 60900, each one of the pieces being tested at 10,000V. They are also tested rigorously according to what the norm establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

Wide range of insulated tools (wrenches, pliers, torque wrenches, pincers, socket wrenches...), as well as insulating items (carpets, gloves, ...) ensuring the workers' safety.

If you would like to know more about explosive environments, visit our website:

DID YOU KNOW...

The hardness of the Cu-Be is 40% higher than the Al-Bron, so it wears less and has a 40% longer life.

The Cu-Be alloy is safer than Al-Bron because its sparks have less energy. Cu-Be is especially recommended in atmospheres listed under the IIC group.

For environments with acetylene, **EGA Master has developed a new alloy called ACETILEX®. This is the only safe option in environments with acetylene** (it has less than 65% of copper in its composition, thus it's safe).

PIPE TOOLS

The widest range of pipe tools and machines designed for use in demanding and heavy industrial environments.

Our innovations and patented pipe tools such as our Mastergrip make your work more efficient than ever.

INDUSTRIAL TOOLS

The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.

The range includes from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

UNDERWATER USE AQUAMASTER

Hydraulic and pneumatic equipment designed for underwater use and to work at any depth achievable for divers.

The range includes grinders, impact wrenches, drills and saws among others.

FOAM TRAYS AND TOOLS PERSONALIZATION

We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!

For a better tool control.

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

100% personalized and tailor-made!

WHY DOES THE MARINE SECTOR TRUST EGA MASTER?

12
RANGES

THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (*).

*Excluding non-sparking tools.

IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

▶ PROVEN EXPERIENCE

MSC Mediterranean Shipping Company
ITALY

- ✓ **Project value: 1,000,000 €**
 - Premium tools for industrial use.
 - Wide range of products offered through a single manufacturer.
 - Worldwide distribution in over 150 countries.
- ✓ **Project:**
 - 1 year agreement to supply industrial premium tools sets.

KAOMBO Ultra-deep-water Offshore Project
ANGOLA

- ✓ **Delivery schedule:**
 - 4 weeks.
- ✓ **Project:**
 - Equipping Floating Production Storage and Offloading (FPSO) for ultra-deep-water offshore project.

WHAT OUR CUSTOMERS SAY

MSC (ITALY)
Mediterranean Shipping Company

"Our business requires trustworthiness, flexibility and fast reactions. We have found all these traits in EGA Master and they are supporting our operations with quality products, tailor made solutions and state of the art service level."

Luigi Stacoli
Chief Procurement Officer

EGMPT & CMA CGM
(EGYPT)

"It's a huge honor to collaborate with EGA Master. The quality of the tools is really remarkable and in the future, there will be collaborations with them"

Ahmed Khattab
Mechanical Maintenance Engineer

SapuraKencana
PETROLEUM

OFFSHORE SDN BHD (MALAYSIA)
Group of Sapura kencana Petroleum bhd

"EGA Master's service is fast and responsive. We feel well supported to find solution to our needs."

Mr. Azmi Mohamed
Senior Manager

GRUPO SUIM (SPAIN)
Naval/ Industrial supplies

"EGA Master is a trusted manufacturer that offers us the best service in the sale and distribution of premium industrial tools. We consider EGA Master as a key Partner for our present and future business."

Alejandro García
Purchasing Manager
