

Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

Working in the mining sector involves working with hazardous substances and gases that could have a direct impact on the safety of the workforce.

Thanks to its specialization in the sector, EGA Master allows mining companies to operate and maintain their assets without compromising the safety and efficiency of its workforce.

NON-SPARKING

The widest range of certified industrial hand tools for working in explosive environments due to the presence of gases or dust.

The entire range is available in both Copper-Beryllium and Aluminium-Bronze. We also manufacture products in Brass, Copper and Acetilex®.

Industrial hand tools with BAM certificate, German laboratory accredited by the EU.

ATEX

ATEX certified instruments for a safe work in explosive environments.

A wide range of radios, torches, hydraulic and pneumatic tools, as well as ventilation equipment for confined spaces.

ANTIDROP

The widest range of industrial hand tools to work safely at heights.

Innovative heat-shrink system that allows adapting any of our tools.

The system complies with DROPS guidelines.

If you would like to know more about safety in explosive environments, download here our white paper:

DID YOU KNOW...

The Directive 1999/92 / EC outlines the minimum requirements for improving the health and safety protection of workers at risk from explosive atmospheres.

Non-sparking tools are safe because their use will not generate energy or heat at temperatures that will reach the ignition point of a gas.

Non-sparking tools are tested under extreme conditions that are hundreds of times more stringent than those that may exist in a common explosive environment. Alloy samples are grinded at high speeds creating sparks that are directed to an explosive atmosphere.

PIPE TOOLS

The widest range of pipe tools and machines designed for use in demanding and heavy industrial environments.

Our innovations and patented pipe tools such as our Mastergrip make your work more efficient than ever.

INDUSTRIAL TOOLS

The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.

The range includes from hammers and slogging ring wrenches to impact sockets of all sizes.

FOAM TRAYS AND TOOLS PERSONALIZATION

For a better tool control.

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

100% personalized and tailor-made!

We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!

WHY DOES THE MINING SECTOR TRUST EGA MASTER?

12
RANGES

THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (*).

*Excluding non-sparking tools.

FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

PROJECTS FOR THE HEAVY INDUSTRY

NEWMONT
MEXICO

- ✓ **Project:** Peñasquito Mine maintenance workshop
- ✓ **Scope:**
 - Storage solutions.
 - Customized tool set for their workshop

GLOBAL ATOMIC
REPUBLIC OF NIGER

- ✓ **Project:** Dasa Uranium Mine (Adrar Emlores III)
- ✓ **Delivery Time:** Immediate
- ✓ **Scope:**
 - Customized tool sets.
 - Tools marking for traceability.

CHINALCO
PERU

Project: Minera Chinalco - Truck shop
Tools Control

- ✓ **Scope**
 - Supply of two complete roller cabinets with EGAWARE Tool Control System (TCS)
 - First EGAWARE in South America
 - Wide range of non-sparking mallets

SNIM SOCIÉTÉ NATIONALE INDUSTRIELLE MINIÈRE
MAURITANIA

- ✓ **Project Value:** EUR227,628.75
- ✓ **Scope:**
 - Industrial Premium Tools.
 - Technical support in the selection of correct tools and accessories to work safely.

OUR MOST DEMANDING USERS

DarmaHenwa

DARMA HENWA (INDONESIA)

"We would recommend EGA Master to any company looking for the widest range of premium quality products, and a responsive service that nobody in the industry can match."

Rikko Denia
Purchasing Manager

Ferreyros CAT

FERREYROS-CAT (PERU)

"We recommend the use of EGA Master Copper-Beryllium sledge-hammers in mining operations because its alloy is safer in the activities of blade maintenance as it does not produce chips that may cause injuries to workers."

Víctor Alfonso Quispe Trujillo
Logistical support

SOUTHERN COPPER
SOUTHERN PERU

SOUTHERN COPPER PERU CORPORATION (PERU)

"The copper-beryllium sledge hammers from EGA Master have brought excellent results to our mining operations due to their safety and performance."

Mauricio Pérez
Senior Concentrator Plant Maintenance
