

Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

Working at the infrastructure and engineering sector requires promptness in service, complete range, reliability in delivery; all these while ensuring safety of workforce. Thanks to its specialization in the sector, EGA Master allows infrastructure and engineering companies to operate and manage their assets without compromising the safety and efficiency of its workforce, with more than 25,000 references and with a distribution network in more than 150 countries.

ANTIDROP®

The widest range of industrial tools to work safely at heights.

Innovative heat-shrink system that allows adapting any of our tools.

The system complies with
DROPS guidelines.

NON-SPARKING

The widest range of certified industrial tools for working in explosive environments due to the presence of gases or dust.

The entire range is available in both Copper-Beryllium and Aluminum-Bronze. We also manufacture products in Brass, Copper and Acetilex®.

Industrial tools with BAM certificate, German laboratory accredited by the EU.

ATEX

ATEX certified instruments for a safe work in explosive environments.

A wide range of radios, torches, hydraulic and pneumatic tools, as well as other measuring instruments with the latest technological innovations.

If you would like to know more about explosive environments, visit our website:

DID YOU KNOW...

The hardness of the Cu-Be is 40% higher than the Al-Bron, so it wears less and has a 40% longer life.

The Cu-Be alloy is safer than Al-Bron because its sparks have less energy. Cu-Be is especially recommended in atmospheres listed under the IIC group.

For environments with acetylene, **EGA Master has developed a new alloy called ACETILEX®. This is the only safe option in environments with acetylene** (it has less than 65% of copper in its composition, thus it's safe).

INDUSTRIAL TOOL

The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.

The range includes everything from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

PIPE TOOLS

The widest range of pipe tools and machines designed for use in demanding and heavy industrial environments.

Our innovations and patented pipe tools such as our Mastergrip make your work more efficient than ever.

FOAM TRAYS AND TOOLS PERSONALIZATION

We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!

For a better tool control.

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

100% personalized and tailor-made!

WHY DOES THE INFRASTRUCTURE AND ENGINEERING SECTOR TRUST EGA MASTER?

12
RANGES

THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

We manufacture 12 ranges and 25,000 references!

FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (*).

*Excluding non-sparking tools.

IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

PROVEN EXPERIENCE

DATENGXIA HYDROELECTRIC STATION CHINA

- ✓ **Project value: US\$160,000.00**
- ✓ **Project:**
 - *Datengxia Hydropower Station.*
- ✓ **Scope:**
 - Development and customization of a 4.0 solution for asset control.
 - 15 roller cabinets with integrated TCS. Smart Stations and 1500 different references of Premium industrial tools in more than 100 customized trays.

SADARA PETROCHEMICAL COMPLEX SAUDI ARABIA

- ✓ **Project value: US\$843,659.20**
 - 3 phases in 10 weeks.
 - Delivered ahead of deadline set by KBR.
 - 18 different product categories.
 - More than 450 roller cabinets.
- ✓ **39,130 tools supplied in more than 2,750 customized trays!**

EIFFAGE FRANCE

- ✓ **Project value: €134,203.55**
- ✓ **Custom-made toolkits**
 - *Premium tools for industrial use. One-stop solution. Custom-made set.*

SAMSUNG E&C and HANWHA E&C SALINE WATER CONVERSION CORPORATION - SAUDI ARABIA

- ✓ **Project value: US\$359,170.00**
- ✓ **Project:**
 - *Yanbu Power and Desalination Plant (Phases 2&3)*

WHAT OUR CUSTOMERS SAY

TECHIMP IMPIANTI S.P.A. (ITALY)

"In EGA Master we found a reliable partner that helped us find the best solutions to our problems. Thanks to EGA Master tools, our productivity has highly improved, keeping at the same time our high safety level."

FOSELEV (FRANCE)

"I would recommend EGA Master to any company looking for a manufacturer that offers a wide range of high-quality products and fast and efficient service; few companies in this sector are at this level of competence."

Cyril Rolland
Supply - Logistics Manager

ANDRITZ HYDRO (UAE)

"Our team loves the EGA Master tools. Once we have tried their tools, they have become the preferred ones in our company."

Rajabbek Otashbekov
Onshore Manager

ZELEROS HYPERLOOP (SPAIN)

"EGA Master has supplied to us quality tools, with an excellent customer service and expert technical advice that we value and appreciate as customers."

Antonio Enguix
Mechanical Engineer at Zeleros Hyperloop

VINCI (PORTUGAL)

"These are truly quality tools; the ability to customize them is a unique advantage. We are satisfied with the fast delivery time and with a very personalized service."

Carlos Queiroz
Vinci Operations Technician
