

# Premium Industrial and Safety Tools

AVAILABLE IN STOCK FOR IMMEDIATE DELIVERY

The pharmaceutical and medical industry has a growing need for special industrial tool solutions: wide range, sterilizable alloys, special sizes, custom developments to cope with increasingly confined spaces; control systems to cope with FOD (Foreign Object Damage) and a growing need for globally approved supply.

## TOOL CONTROL SYSTEM

**EGA Master offers as a solution an exclusive and personalized tool control system avoiding deviation or loss of them.**

Choose the required tools and EGA Master will design and manufacture the necessary set, fully customized, with bicolor trays that perfectly adapt to the tools and allow you to view the missing tool.

\*Possibility to install EGAWare, the tool control software specifically developed for this application, and to engrave the end user logo.

## NON-MAGNETIC TITANIUM

**The completely non magnetic Titanium tools have been developed with the most high-tech titanium alloy 6Al-4V, in order to be used in the most innovative and advanced fields, such as aviation, military and aerospace applications.**

Working with steel tools in environments with magnetic fields poses a risk both to the safety of employees and to the equipment they are working with. In those environments, the Titanium tools are the most appropriate to ensure the safety and productivity of repairing and maintenance activities.

## ESD

**A wide range of ESD electro static discharge tools to work with electronic equipments. ESD products dispose of the electrostatic energy in a safe and controlled way both for the user and for electronic components.**

The range includes pliers, screwdrivers and anti-static wrist strap for maximum safety.

## INSULATED 1000V

**EGA Master insulated safety tools comply with IEC 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.**

A wide range of insulated safety tools (wrenches, pliers, torque wrenches, pincers, socket wrenches..) and insulating products (carpets, gloves..) ensuring the safety of workers.

If you want to know more download your diptych here:

## DON'T YOU KNOW EGA SOLUTIONS YET? ...

EGA Solutions is the engineering that provides turnkey and customized solutions for Industry 4.0.

It offers indoor and outdoor geolocation solutions, tool management and control systems, custom manufacturing of intelligent workstations and specific solutions for KANBAN warehouses among others.

## STAINLESS STEEL TOOLS

**420 stainless steel tools, ideal for processes that require sterilization or avoid contamination by carbon steel.**

## CONTROLLED TIGHTENING

**The widest range of tools for controlled tightening. Advice and customized developments.**

The range includes from digital torque wrenches (torque checking QC, mini, interchangeable heads torque wrenches...) analogic torque wrenches (mini, interchangeable heads, preset torque, dial, 1000V insulated torque wrenches...) hydraulic and battery-powered torque wrenches, to torque multipliers and calibration and control tools.

## INDUSTRIAL TOOLS

**The widest range of tools and sizes in the market, from the smallest to the biggest ones, including non-standard sizes.**

The range includes from pliers, screwdrivers or combination wrenches, to controlled tightening tools such as digital and analogic torque wrenches, hydraulic and pneumatic tools.

## FOAM TRAYS AND TOOLS PERSONALIZATION

**We also mark each tool with your logo, company name or workshop name to increase its traceability and reduce costly losses!**

**For a better tool control.**

We personalize the design of each Foam tray for roller cabinets, tool boxes, suitcases or tool sets.

**100% personalized and tailor-made!**

## WHY DOES THE PHARMA AND MEDICAL SECTOR TRUST EGA MASTER?

### THE WIDEST PRODUCT RANGE

We are the only manufacturer that offers a one-stop solution to reduce the administrative and logistic costs of procurement processes.

**We manufacture 12 ranges and 25,000 references!**

### FLEXIBILITY AND PERSONALIZATION

We offer solutions to meet the specific needs of each customer, either by personalizing solutions or manufacturing tools according to the customer requirements.

### PREMIUM TOOLS FOR INDUSTRIAL USE

We offer premium quality solutions for industrial use. All our tools include an unlimited lifetime warranty (\*).

\*Excluding non-sparking tools.

### IMMEDIATE AVAILABILITY

Our products are in stock for immediate delivery. We have a 98% availability rate and a 99% on-time delivery rate.

# ▶ PROVEN EXPERIENCE

## BRISTOL-MYERS SQUIBB

IRELAND

### ✔ Project:

- New biotechnology production line in clean rooms

### ✔ Delivery schedule:

- 6 Weeks

### ✔ Scope:

- Technical advice on the selection of suitable tools for clean rooms
- Design and manufacturing of tailor-made stainless steel tools

## GENERAL ELECTRIC HEALTHCARE INSTITUTE

USA

### ✔ Scope:

- Development and manufacturing of custom-made set of non-magnetic titanium tools

## HITACHI MEDICAL SYSTEMS

SPAIN

### ✔ Scope:

- Custom-made manufacturing of a non-magnetic titanium tools set

## WHAT OUR CUSTOMERS SAY

ESAOTE MEDICAL (FRANCE)

"We are satisfied with our collaboration with EGA Master since we had a specific need for the maintenance of our MRI machines, and their tools (titanium non-magnetic tools) and their advice helped us to create Special tools sets that we can use during our on-site interventions"

**Riccardo Kancel**  
Service manager
